

FENC® TOPGREEN®

Recycled Filament / Recycled CD Filament / Recycled Stretch Filament

Recycled PET Filament 聚酯回收纖維

產品簡介 以回收寶特瓶為原料，經過粉碎、清洗、分解、聚合、造粒、加熱熔融、抽絲及假撚加工製成的纖維，是對地球生態絕對環保之素材。

TOPGREEN® recycled filament is an outstanding environment-friendly fiber based on the material of recycled post-consumer PET bottles, which were processed through grinding, washing, melting, re-polymerizing, spinning, and texturizing to yarn.

產品特色

- 使用最環保的回收技術，製成的再生纖維
Utilizes the most state-of-the-art recycling
- 減輕環境負擔，善盡地球公民責任
Repurposes waste, reduces our reliance on petrochemicals and prevents environmental pollution
- 可追溯性
FENC® Recycling is completely traceable from post consumer to yarn

認證

- GRS(CU815435GRS-02.2017)
- SCS(SCS-MC-02150)
- 台灣環保標章 Taiwan Green Mark (Issued by Taiwan EPA)
- Oeko-tex Standard Approved
