

FOR BETTER PERFORMANCE & BETTER ENVIRONMENT

FENC® TopDry Z™

Durable PFC-free DWR Resin

Permanent DWR,
Wash Durable

Polymer
innately

PFC-free,
Eco- friendly

Structure
Independent

Why?

Perfluorinated and polyfluorinated chemicals (PFCs) are incredibly resistant to breakdown, and will bio-accumulate into the eco-system. Moreover, research has shown that PFCs, including PFOA and PFOS can cause harm to reproduction, and promote the growth of tumors and a host of health problems to human beings.

Solution

FENC TopDry Z is a green chemistry modified polyester that is permanently water repellent.

Performance

TopDry Z has the performance and processability of conventional polyester yarns but with innate water repellency.

Why?

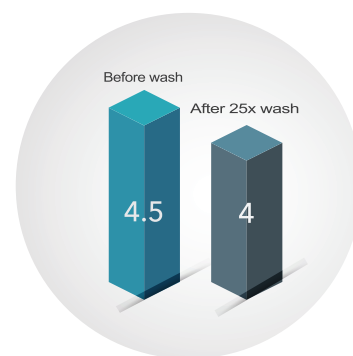

全氟和聚氟化學品(簡稱PFCs)對生態系統有極大破壞及累積性；根據各方研究，PFCs(包含PFOA, PFOS)化學產品，會影響人體生育能力、造成腫瘤異常及產生許許多多健康問題。

Solution

FENC TopDry Z 是新一代環保改質聚酯產品，不含PFCs，並具有長效型的撥水功效。

Performance

FENC TopDry Z 本身即具有撥水功能，其加工性及特性同一般聚酯產品。

DWR test AATCC-22
